

# Happy Birthday

Pre-Cut 3D Pyramid "For You Bear" (83825)  
2 sheets Ivory Cardstock (K290033)  
1 small sheet of any green paper for leaves  
2 6x6 Dk Purple Decorative Paper  
Marinna's Creatable (LR0112 & LR0141)  
Joy! Craft Cutting Die (60020023 & 60020039)  
Joy! Craft Decorative Stones -Lavender (60210007)  
Joy! Craft Decorative Pearls -Dk Purple (60200005)  
Flower Embellishments  
Deco Sticker-Happy Birthday-Gold (342G)  
BigShot/CuttleBug  
Foam Tabs (65000002)

## 3D Sheet:

1. Press out all the circular pieces of the bear trying to keep the mauve frame intact with the bear. Be sure to place the largest picture inside the mauve circular frame, turn over and adhere with tape to sure frame to circle.
2. Continue layering images using foam tabs between the layers and then set aside.

## Instructions for Easel Card

1. Cut 1 sheet of cardstock to 11"x6" and fold in half.
2. Using your Bigshot or Cuttlebug cut out the large scallop circle. In order to keep the fold in the card and not be cut off, place the fold inside the scallop die leaving part of the edge of the die past the paper so the edge is not going to cut the paper.
3. Once you cut the card out take the top scallop layer and fold it in half toward the inside, this creates a tent out of the top part, this will create the stand for the Easel Card.
4. You will need to cut out and emboss another scallop circle this time with a single sheet of paper. TIP: If you have thick card stock you may want to lightly mist or dampen the edges of the scallop before embossing to get a better raised impression, don't over wet the paper or it will curl.
5. Next you need to cut the inner smaller scallop card. Cut 2 pieces 1 from card stock and 1 from decorative paper.
6. I find it easiest to decorate the larger single scallop circle first before attaching to card front.
7. Attach the 3D Bear to the smallest scallop circle and then center and attach to the single scallop circle.
8. Add the Lavender stones as shown in sample.
9. Once the top scallop is decorated apply double sided tape to the Lower Half only on the back and attached to the stand on the part you folded in.

## Instructions for Stand Base:

1. Center and glue down the 2nd smaller scallop, made from decorative paper to the card base.

## Paper Creations Online Project

2. Add decorative stones and pearls around the scallops.
3. Add roses and Die cut a small tag and 2 leaves to add to your base..
4. For the stopper I used the small cluster of tiny Prima Roses.
